DETAILED ACTION

Allowable Subject Matter

1. Claims 2 and 4-7 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or make obvious the steps or means for **"selecting and invoking a second parser comprises comparing the identified format with a repository storing a list of parsers associated with specific formats and storing format templates corresponding to the specific formats"**, when the selecting and invoking are considered within the specific structure of the method recited in claim 1. The prior art of record fails to teach or make obvious the steps or means for **"the first selected parser is adapted to parse a control structure of a message component having an IDoc format, to read a format field of a data segment of the IDoc component to identify the format and to invoke a second parser which is defined for parsing IDoc data segments having the identified format"**, when such parser is considered within the specific structure of the method recited in claim 4. The prior art of record fails to teach or make obvious the steps or means for **"at least one parser is adapted to parse the first component and then to read a format field of a second component of the message to identify the data format of the second component"**, when such parser is considered within the specific structure of the device recited in claim 6.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
